## Highlights

- Message from Kenny and Neil
- Gold Metal Celebrates South Lamar with Friends and Family at First Annual LamarBQ
- Gold Metal honored by The Dallas Morning News as one of the Top 100 Places to Work
- Happy Holidays from Gold Metal Recyclers

## Message from Kenny and Neil

Gold Metal has embarked on a bold new initiative that we believe has a chance to transform and revitalize quality of life and business on South Lamar Street. The goal is to partner with neighbors, other business owners, churches, and the City of Dallas to create an area of mixed usage. Upgraded landscaping, visual screening, redirecting of traffic, street lighting, and curbing are a few of the components that can make this dream a reality. We showcased some of our ideas in November at the First Annual LamarBQ neighborhood block party, where a couple thousand people joined us for games, music, and of course, good barbeque. Ultimately, we want to work together with our community to create a vibrant neighborhood, including retail, single family homes, and pedestrian foot traffic that can serve as a model for other areas of Dallas to emulate.

We have provided a facility for thousands of Dallasites and other Texans to recycle millions of pounds of metal over the past thirty-five years. We have provided jobs, paid taxes, and saved natural resources. We have been gratified by developing friendships with so many of our loyal customers. Now it is time for us to be a community partner and improve all aspects of life on South Lamar Street.

We are invigorated by the challenge and excited about the opportunity to accomplish something very special for our friends, neighbors, employees, and ourselves. Together, we can do anything!

Kenny and Neil

## Gold Metal honored by The Dallas Morning News as one of the Top 100 Places to Work

On Wednesday, November 3<sup>rd</sup>, The Dallas Morning News honored Gold Metal Recyclers as one of the Top 100 Places to Work in Dallas. Over 1,000 companies in the Dallas area applied to be considered in the top one hundred ranking. The one hundred companies were selected by employees completing anonymous surveys based on qualities such as leadership, compensation, training, flexibility, and diversity. Gold Metal was named one of the top companies with the best work environments. Attributes such as strong leadership, direction, and opportunity for growth were stated by Gold Metal employees as reasons for their company loyalty.

Gold Metal currently employs over 360 employees at seven different locations. In the Dallas/Fort Worth area alone, Gold Metal employs 295 employees, some of which have been with the company for over twenty-five years. "I believe there is a reason that our employees stay loyal to the company," says Kenny Goldberg, "and that reason is based on fair and honest treatment by management and a mutual understanding that hard work equals personal and professional success."

Both Kenny and Neil Goldberg state how humbling this experience was for them. "To see how our employees truly feel and to know that what we have built affects so many people is very gratifying," says Neil Goldberg. "We are so proud to be honored by the *Morning News* as we showcase a great example of entrepreneurial success."
